

LoadHandler L24™ Alternators

Dual Internal Fan Design for Medium & Heavy Duty Applications

12V, 160-Amps

Reliable Power Source

100-Percent New Drop-In Replacement

New service LoadHandler L24 dual internal fan design alternators provide reliability and performance to medium duty and heavy duty applications. The LoadHandler alternator line helps to extend service life, improve performance and provide more reliable vehicle uptime.

FEATURES	BENEFITS
Dual Internal Fan Design	Maintains optimum bearing temperatures during operation & minimizes heat damage for longer service life – the cooling power of the popular IdlePro™ products
Drop-In Replacement	Engineered to match OE design in appearance, fit and function
100-Percent New Unit	High quality, new, no core units – affordable alternative to rebuilt units
Brushed Design	Durable design to provide consistent, reliable performance in a wide range of operating conditions
Fully Performance Tested	Each LoadHandler alternator has undergone stringent testing to help ensure durability and performance
Heavy Duty Design	Heavy duty bearing, rectifier and diodes increase service life and help to improve performance in extreme operating environments

SPECS	
System Voltage	12V
Performance Output	160 Amps
Rotation	Clockwise; Counterclockwise
Max Speed	10,000 RPM Continuous 12,000 RPM Intermittent
Temperature Rating	93°C/ 200°F
Mounting	J180 Hinge Mount Pad Mount
Weight	7.7 kg/16.2 lbs
Warranty	Heavy duty applications – One year, parts only*

* Check with your LoadHandler representative for more details
