

LoadHandler® Alternators

Application-Specific Brushed Design for Transport Refrigeration Vehicles

12V, 90- and 120-Amps

New service LoadHandler Power® Products alternators for performance critical, heavy duty refrigeration trailer and truck units from Prestolite Electric provide reliability and performance to Thermo King refrigeration units. Each LoadHandler alternator features an application-specific brushed design that provides reliable performance in high-temperature environments. These compact alternators provide consistent cooling performance and uncompromised airflow.

Prestolite Electric LoadHandler alternators are application-engineered for best-in-class value and performance to provide extended service life and reliable vehicle uptime.

FEATURES	BENEFITS
Premium Brushed Style	Durable design for a wide range of operating conditions
Heavy Duty Housing	Better withstands extreme environments as compared to conventional housings
Heavy Duty Front & Rear Bearings	Provides extended service life capability
Innovative Rotor Design	State-of-the-art rotor performs when you need it most
Fully Application Tested	Industry-leading performance testing ensures proper engagement in high heat conditions
Completely New Unit	No core return required & direct drop-in design

SPECS	
System Voltage	12V
Performance Output	AK1090, 90 Amps AK1120, 120 Amps
Temperature Rating	-30°C to 125°C
Mounting	Spool Foot
Rotation	Clockwise
Diodes	6 Avalanche high-amp diodes
Shaft Diameter	AK1090, 17 mm Shaft AK1120, 17 mm Shaft
Weight	AK1090, 10.5 lbs. AL1120, 10.5 lbs.
Warranty	Reefer Applications, 1-Year*
